

SPECTRA

Already Covered by Cyber Insurance?

SpectraCare adds a different kind of protection. We back what we certify.

Security Warranty

On SpectraCare claims. We pay directly when a certified service fails.

Pays In Days

To resolution. No lawyers, no proof of financial loss required.

Up to \$1M

Per customer warranty pool backing your certified services.

THINK OF IT LIKE YOUR CAR.

Airbags don't stop the accident. They protect you in the moment it happens. Car insurance covers the aftermath: the repair bills, the medical costs, the liability.

SpectraCare = airbags.

If your backup fails to restore or ransomware gets through, we respond fast and cover the immediate damage.

Cyber insurance = car insurance.

It's the financial safety net for everything else: breach investigations, legal fees, regulatory fines, extended downtime.

SpectraCare	Cyber Insurance
Warrants the performance of your MSP's certified security services	Covers the financial fallout from a cyber event
Pays quickly with no lengthy claims process	Pays after investigation and proof of financial loss
No deductible , no lawyers, no documentation burden	Involves breach counsel, forensics, ransom, financial crime, legal review, etc.
Activated when a certified service doesn't perform as warranted	Activated when there's a covered financial loss
Backed by Spectra's independent verification of your MSP	Backed by your insurer's policy terms and capacity

WHAT THIS MEANS FOR YOUR BUSINESS

	Lower insurance premiums. Because your MSP is Spectra-certified, insurers recognize the reduced risk. Your renewal comes back lower, up to 35% depending on their certification level and your certified services.
	Faster response when something goes wrong. SpectraCare doesn't sit behind an adjuster and a claims queue. If a certified service fails, it's resolved directly, typically in days, not months.
	Your MSP is accountable in a way most aren't. Your MSP chose to be independently certified and have their work warranted. That's not a marketing claim. It means they stand behind what they deliver.
	No questionnaire required. Spectra's certification does the work your insurer would otherwise ask you to prove. Simpler renewals. Preferred terms.

INNOVATIVE INTEGRATION, INC. IS SPECTRA-CERTIFIED.

That means a third party has verified that the security services protecting your business meet a certified standard, and the performance of those services is backed by a warranty. You've already made the smart choice in I3. SpectraCare and your cyber insurance make sure that choice holds.
